List of Tables

3-1 Document indices and bibliographic details for "Wavelets 1999 (1-100)" data set.. 65

3-2 Details for SCI (Science Citation Index) data sets used in this section.……..…. 87

3-3 Clustering metric comparisons for standard pairwise (P.W.) vs. hybrid pairwise/higher-order (H.O.) distances …….……... 95

4-1 Details for SCI (Science Citation Index) data sets used in this section..……..101

4-2 Clustering metric comparisons for hybrid distances from Chapter 3 (*minsup* 0) versus hybrid distances with reduced complexity (*minsup* 2) …… 102

4-3 Clustering metric comparisons for hybrid distances from Chapter 3 (minsup 0) versus hybrid distances with reduced complexity (minsup 4) ……..... 102

4-4 Details for SCI (Science Citation Index) data sets used in this section …….. 106

4-5 Example citation matrix with transaction and item weights …… 119

4-6 Details for SCI (Science Citation Index) data sets used in this section …….. 127

4-7 Clustering metric comparisons for transaction weighting (T.W.) versus standard pairwise (P.W.) distances …… 127

4-8 Clustering metric comparisons for item weighting (I.W.) versus standard pairwise (P.W.) distances ……..…. 128

5-1 Details for SCI data sets used in this section …….…. 160

5-2 Minimum spanning tree itemset-connectedness metric for standard pairwise (P.W.) versus hybrid (H.O.) distances …… 162

5-2 Comparisons of minimum spanning tree itemset-connectedness metric for hybrid distances with full complexity (*minsup* 0) versus reduced complexity (*minsup* 2) 162

5-4 Comparisons of minimum spanning tree itemset-connectedness metric for hybrid distances with full complexity (*minsup* 0) versus reduced complexity (*minsup* 4) 163

5-5 Comparison of minimum spanning tree itemset-influence metric for pairwise (P.W.) and hybrid (H.O.) distances 175

A-1 Clustering metrics for "Adaptive Optics" data set 205

A-2 Clustering metrics with bibliographic coupling for "Adaptive Optics" data set 208

A-3 Clustering metrics for "Collagen" data set 210

A-4 Clustering metrics for "Genetic Algorithms and Neural Networks" data set 2 12

A-5 Clustering metrics for "Quantum Gravity and Strings" data set 214

A-6 Clustering metrics with bibliographic coupling for "Quantum Gravity and Strings" data set 216

A-7 Clustering metrics for "Wavelets (1-100)" data set 218

A-8 Clustering metrics for "Wavelets (1-500)" data set 220

A-9 Clustering metrics for "Wavelets and Brownian" data set 222

A-10 Clustering metrics with bibliographic coupling for "Wavelets and Brownian" data set 224

B-1 Clustering metrics for hybrid distances with reduced computational complexity via *minsup*, for "Collagen" data set 226

B-2 Clustering metrics for h ybrid distances with reduced computational complexity via *minsup*, for "Quantum Gravity and Strings" data set 229

B-3 Clustering metrics for hybrid distances with reduced computational complexity via *minsup*, for "Wavelets (1-500)" data set 232

B-4 Clustering metrics for hybrid distances with reduced computational complexity via *minsup*, for "Wavelets and Brownian" data set 235

B-5 Clustering metrics for hybrid distances with reduced c omputational complexity via *minsup*, for "Wavelets and Brownian" data set with bibliographic coupling ... 238

C-1 Clustering metrics for transaction and item weighting, "Collagen" data set 241

C-2 Clustering metrics for transaction and ite m weighting, "Quantum Gravity and Strings" data set 244

C-3 Clustering metrics for transaction and item weighting, "Wavelets (1-500)" data set 246

C-4 Clustering metrics for transaction and item weighting, "Wavelets and Brownian" data set 248

C-5 Clustering metrics with bibliographic coupling for transaction and item weighting, "Wavelets and Brownian" data set 250

D-1 Minimum spanning tree itemset-connectedness metrics for "Adaptive Optics" data set 252

D-2 Minimum spanning tree itemset-connectedness metrics with bibliographic coupling for "Adaptive Optics" data set 254

D-3 Minimum spanning tree itemset-connectedness metrics for "Collagen" data set ... 255

D-4 Minimum spanning tree itemset-connectedness metrics for "Genetic Algorithms and Neural Networks" data set 256

D-5 Minimum spanning tree itemset-connectedness metrics for "Quantum Gravity and Strings" data set 257

D-6 Minimum spanning tree itemset-connectedness metrics with bibliographic coupling for "Quantum Gravity and Strings" data set 258

D-7 Minimum spanning tree itemset-connectedness metrics for "Wavelets (1-100)" data set 259

D-8 Minimum spanning tree itemset-connectedness metrics for "Wavelets (1-500)" data set 260

D-9 Minimum spanning tree itemset-connectedness metrics for "Wavelets and Brownian" data set 261

D-10 Minimum spanning tree itemset-connectedness metrics with bibliographic coupling for "Wavelets and Brownian" data set 262
