Lafayette, Louisiana

Proudly announces a presentation

Dr. Dirk Reiners

The Center for Advanced Computer Studies
University of Louisiana at Lafayette

will give a presentation entitled

Research Projects in Interactive Computer Graphics

****

Abstract

Interactive 3D graphics has become a core foundation for a wide variety of fields in both computer science research as well as industrial applications, in training, research and development. The LITE facility offers an extraordinary environment to work with a wide variety of interactive visualization systems, from simple monitors to fully immersive display systems, coupled high-performance computing systems. This talk will introduce some of the projects that are running in my group and what the requirements are for successful work in interactive 3D graphics and digital entertainment.

DATE: FRIDAY, OCTOBER 10, 2008
TIME: 11:00 A.M. - 12:00 NOON
LOCATION: ACTR AUDITORIUM, ROOM 112
